Maron's Carret. RICHMOND, August 6, 1886. To the Honorable Members of the City Council:

Gentlemen,-At a meeting of the

Board of Police Commissioners, held last evening, I was directed to forward you the enclosed letter from the Chief of Police, recommending an increase of the police force. The Board most heartily endorse the suggestions of the letter, and feel sure if you will investigate the matter that you will concur in the necessity for the increase suggested, and as soon as you can accomplish it.

W. C. CARRINGTON. President Police Board. Major Poe's letter recommends that the police force be increased by an addition of from fifteen to twenty men.

NO WEEKLY PAY.

A special communication from the other branch transmitting a joint resolution adopted by the Common Council authorizing the chairmen of committees to sign the weekly pay-rolls of employees in their respective departments was read, and, on motion of Mr. Otley, MONTHLY REPORTS.

The usual monthly reports from the everal committees were received and filed. The ordinance offered by Mr. Crump, and referred to the Committee on Light, providing for certain changes in the gas department, was reported back adversely, and, on motion of Mr. Dickerson, the report was laid on the

Mr. Snead, from the Committee on Grounds and Buildings, submitted the following report : RICHMOND, August 9, 1886.

To the City Council: the resolution from the Board of Aldermen July 12, 1886, herewith beg leave to submit the following for your con-

sideration and approval: 1. That we intend, with the assistance of the City Engineer, to pro-ceed at once to build the new City Hall if your honorable body adopt the amendment to the ordinance

passed by the Common Council August 2,1886, by the Wait & Cutter or Myers's plans.
2. That we intend to make an honest effort to build it by day-labor, and, as far as the same is practicable, under the

direction of the City Engineer and a competent supervising architect or superintendent of construction, to be approved by the committee, who shall be paid &- per month for his services. 3. That such work as cannot be done by our Virginia firms we intend

to purchase from some establishment beyond the limits of the State upon the the approval of the City Engineer and committee.
4. We believe that the stone-work,

wood-work, brick-work, plastering, painting, plumbing, &c., can be done on the ground, and that the steam boilers and heating apparatus can be built by one of our Richmond builders. 5. That the iron-work of all descrip-

turers, giving their price per day for man and machine, and after equalizing the differences to distribute the work equally amongst them, subject to the approval of the City Engineer, the payhim and approved by the committee.

6. The stone to be quarried in such quantities and sizes as the plans and specifications require, and delivered on the ground in the rough state at such prices as may be determined upon by actual bids to be gotten by the committee from — number of leading granite companies of the State, the committee reserving the right to refuse any and all bids, the stone to be cut on the ground; the other material to be has been provided for before in their

statement. 7. The mechanics and laborers to be employed and their wages set by the foreman under whom they may have to work, subject to the approval of the City Engineer, the workmen to be paid weekly on Monday evening while at work, the money to be put in an enve-lope, with the workman's name and time written thereon, the time being made time of the paying off the foremen of the

man to the paying clerk. 8. The excavating to be done by hiring mule, cart, and driver at a rate per hour to be determined by the City Engineer and committee, the carts an the owner or owners.

RICHMOND VA., TUESDAY MORNING, AUGUST 10, 1886.

Mr. Dickerson moved that the matter be laid on the table until the amended ordinance adopted by the Common Council, putting the building of the new City Hall in the hands of the Com-

mittee on Grounds and Buildings, was reached.

When this part of the communica-tion from the other branch was reached the subject came up again. Mr. Dickerson inquired what was meant by the words in the ordinance.

by the Wait & Cutter or some other

Mr. Spead said that this was a mistake in the wording of the ordinance. The only plans before the committee were those of Wait & Cutter and Myers. The committee proposed, howtaken until they are entirely satisfied that one of these two plans is as good or better than any other which they can

adoption of the ordinance. So far as he knew the city had no other plan than that of West & Cutter. It was true that there was hanging on the walls of the chamber a picture of Myera's plan (pointing to a picture put up by Mr. Emmet Depriest), but no one had been authorized by the

Council to hang it there. He reviewed at some length the history of the legislation on the new City-Hall question, and submitted the following as a substitute for the ordinance passed by the Council: An Ordinance Concerning the Erection

of a New City Hall. Be it ordained by the Council of the City of Richmond, 1, That a special committee of six—three from the Board of Aldermen and three from the Common Council-shall be appointed to act in conjunction with the

Committee on Grounds and Buildings

in the erection of the City Hall and the consideration of all future matters pertaining thereto. 2. That the Committee on Grounds and Buildings and the special committee, together with the City Engineer, be and are hereby instructed to proceed at once to erect the City Hall in accordance with the Wait & Cutter plan, using Virginia granite, which shall be dressed and laid by skilled mechanics employed by the City En-gineer, who shall also employ day-laborers on such other parts of the build-

3. Any parts of the work done by contract shall be awarded to contractors who are citizens of Richmond, unless the same is impracticable, in which cases contracts may be made with parties outside of the city.

to the city's interests to do so.

parts of ordinances in conflict with the foregoing are hereby repealed. Mr. Snead moved to refer the whole matter to the special committee provided for in Mr. Dickerson's ordinance.

had been adopted by the Council. After further discussion the vote was taken, and Mr. Dickerson's ordinance

was defeated—5 to 9.

Mr. Dickerson raised the point as to whether the adoption of the original ordinance would allow the committee to adopt the Myers plan if they saw fit and pay \$10,500 for it. The Chair ruled that the committee

did not have this power.

The vote on the original ordinance was taken, and it was adopted.

PAVING BROAD STREET. When the proposition from the Common Council to issue \$23,000 of bonds best terms that can be had, subject to for the purpose of laving a sewer on and paving with granite spalls Broad street from Foushee to Seventh was reached Mr. Dickerson opposed it.

He said this was legislation by the other branch without a precedent, and, if set, would be a dangerous one. There are many other equally important streets in Richmond as Broad. For instance, Dock, Cary, Thirteenth from Main to Cary, &c. Why not issue bonds for laying a sewer and repaving them? He was willing to vote for a liberal appropriation for Broad-street improve-ments, but could not vote to set as a precedent, which sooner or later would be followed by every ward in the city. such a preposterous proposition as to issue bonds to lay a sewer on one particular street.

Mr. Chappell thought Broad street the most important street in the city, but questioned the propriety of concur-

ring in this ordinance.
Mr. Snead agreed with Mr. Dickerreferred to a committee before being adopted by the Council. He therefore moved that it be referred to the gotten in the same way, except such as | Committee on Streets, which was agreed to by an almost unanimous vote.

LAMP-LIGHTING.

When the resolution adopted by the Common Council providing that after the expiration of the present contract for lighting the streets no further con tracts be made was reached, Mr. Powers moved that the Board non-concur in the resolution. The city, he said, had never had a better or cheaper mode of lighting the street-lamps.

Mr. Chappell said that the resolution

was one that commended itself in his estimation. The very argun out adduced by Mr. Powers that the lighting was so cheaply done was convinc him that the contract system should be abolished. He was in favor of giving more to the employees who have the work to do, and not have a contractor who gets all the profits and does none of the work.

Mr. Powers said be was there to represent the city and his constituents as he would his private interests, and he thought the other members were sworn to do the same, and he did not believe there was a gentleman present who would not, in making a private contract, give it to the lowest responsible bidder.

KNIGHTS OF LABOR. GENERAL SECRETARY TURNER VISIT.

Some Notes About the Convention Here in October, and Sketches of a Few Delegates, &c.

Frederick Turner, Esq., General Secretary and Treasurer of the Knights of Labor, reached this city yesterday morning and registered at the Exchange Hotel. He was accompanied by hi daughter, Miss Julia. His visit to Richmond was to make some necessary preparations for the meeting of the Convention of the Order here in October. The General Assembly, or Genera

Convention, as it is sometimes called, will meet on the first week in October. It was believed that the First regiment armory could be obtained for its sessions, and that is really about the only building in the city affording the neveniences for so large a body, but it seems that it has been engaged for some other purposes for a part of October,

and last night Mr. Turner and considering the next best hall to be procured. No doubt some arrangement will be made that will give the delegates agreeable quarters while they are here, and they will be here for about two weeks. There will be present about 1,000 delegates, and from three to four hundred other persons, in cluding a large contingent of newspaper correspondents, will be attracted here by the proceedings of the body. All

of its important sessions will be secret. Mr. Turner was on yesterday the recipient of many attentions from officers and members of the order here. They kept him, or he kept them, engaged all day and late into the night, excepting some three or four hours in the afternoon, when he was out with some of them for a drive about the city.

A special telegram from Pittsburgh says: " From a leading Knight of Labor it was learned to-day that a movement for a general revision of the laws governing the organization is on foot. The question will be brought before the Richmond Convention in October next. It is proposed to give General-Master-Workman Powderly the additional privilege of selecting the members of the General Evecutive Board. It is also proposed to have a Congress composed of one member from each State, with headquarters in New York city, who would materially lessen the work of the General Execu-

Most of them, it is understood, are favorable to the re-election of Frederick furner as general secretary-treasurer. The three delegates from District Assembly No. 70 are said to be opposed to him but in favor of Powderly's reelection as general master workman. " Mr. Turner, although he is genera

secretary-treasurer of the order, does not attend the general conventions in that capacity, but as a plain delegate from District No. 1. He was formerly by trade a gold-beater, but is now a member of Cigar-Makers' Assembly No. 53, and a delegate from that local. He is forty years old, and has been a member of the order half his life. The public are well acquainted with bim, owing to his prominence as general secretary-treasurer and member of the General Executive Board. He is now serving his third term in that position. ROBBERS AT WORK AGAIN.

Unsuccessful Attempt to Rob a Broad Street Dry-Goods House.

During the past few weeks there have been several robberies committed in

the business partions of the city, and night and daybreak, it is thought an at-tempt was made to enter the dry-goods store of Fourqurean, Price & Co. Their establishment has an entrance on Broad and one on Fifth street. The parties were frightened away by the barking of a dog in the back yard of a gentleman who lives near by.

An examination of the premises by

the police showed that the thieves went through the rear premises of a house fronting on Grace street, ascended a tree, got on top of a stable, and then attempted to prize out the iron grating of a window in the second story of the Co.'s store, fronting on Fifth street. The noise made in the attempt was heard by a dog in the yard, which barked furiously and caused the thieves to leave. They then got upon the roof of the main building, and, forcing out the iron bars of Mrs. B. W. Cosby's kitchen-window, entered the same and went to the millinery department (which is over the dry-goods store). where they ransacked the drawers of the desk, but failed to get anything. Upon leaving these premises, the thieves, by means of a ladder which they found at Mrs. Cosby's, descended to the yard in rear of Elsom's Labor Agency and made their escape. Doubtless they entered Mrs. Cosby's establishment thinking it was the upper floor of the dry-goods store.

Between 2 and 3 o'clock yesterday

morning Officers Wren, Shields, and B M. Angle, while in the alley between Broad and Marshall and Second and Third streets, heard a noise in the rear of Behle's shoe-store, which sounded like some one jumping over fences. This was followed by the barking of a dog. The officers secreted themselves. when presently a negro boy was seen to ump over the fence into the alley and start to run, when they stopped him. The boy was in his stocking-fee back yard for the past three nights; that yesterday morning the dog got after him, and he was getting out of its was required to give bond in the sum of \$100 for his good behavior for six months, and was sent to jail in default.

PARTED WITH HIS MONEY DRUNK A Veteran from Hampton Makes

Financial Error. Officer Shinberger yesterday arrested in the bar-room of the St. James Hotel Thomas Carr and James A. O'Conner for drunkenness. The former is an in-mate of the Soldiers'. Home at Hampton, off on a furlough, is on the pension list, and has a bank account here several hundred dollars strong. O'Conner claims to be from Baltimore, but is working here with Mr. McDonough, a

tailor. After getting to the station-house Carr made a statement on which a warrant was issued by Justice W. A. Graves against O'Conner, charging him with obtaining from Carr \$100 under false pretences. O'Conner claims that he borrowed the money, but Carr says

that he was robbed of it. Mr. McDonough states that he was present when Carr signed a check, drew \$125 from the First National Bank, and lent \$100 of it to O'Conner. the latter saying that with it he would bring his (O'Conner's) wife on from Washington. It was understood that Carr was to latter set up housekeeping here. Mc-Donough represents that Carr was quite drinky when he signed the check, but that he seemed to know what he was

All the money was recovered. Accused will be before the Police Court this morning.

A Chitteg and Biting Scrape. Dominici La Ginestra, an Italian shoemaker at 2204 east Broad street, was before the Police Court yesterday morning on the charge of assaulting an also up for assaulting La Ginestra and biting badly the finger of the latter's wife. The case was continued until tomorrow.
It seems that about a week ago

Brooks ordered a pair of shoes from La Ginestra and paid him 50 cents as guarantee money. Saturday evening when Brooks called for his shoes he found them too large for him, refused to accept them, and demanded that his money be refunded. La Ginestra re-fused to refund the money, saying that the shoes were made as ordered, and bat he could not shord to have them left child so I'm an arror of the hands. Words followed, then moscopathy That night the child passes blows. During the scuttle they ran against the glass-front door and broke it all to pieces. The Italian's wife came to her husband's rescue, and Brooks bit her hand quite badly. He (Brooks) received a blow on the left side of the head, which he says the shoemaker inflicted with his hammer. His b was also badly cut, but be could not tell whether this was done by the broken glass or by the shoemaker with a knife. Both parties were avrested. La Ginestra was bailed in the gam of \$300, and Brooks was put in the sta-

Convention held at Cincinnati. He was one of the first men chosen on the Arbitration Board, organized to adjust differences between the shoemakers and shoe manufacturers, and served as one of its secretaries. Twenty-one years ago he slept in the atreets of Richmond as a weary soldier, but he does not expect to sleep in the streets during his coming visit to that city, for, as he says, he will be there in the capacity of a Knight of Labor, who deserves nights of perfect rest.

"Since he became identified with the order he has been an indefatigable worker for the cause and has organized numerous assemblies outside of his district, notable among them being the brickmakmakers and the art-metal workers. There is talk among his admirers of running him as a labor can-Convention held at Cincinnati. He was Richmond. Her heir & light and her
